Process Automation & Business Systems Analyst

Finance Operations | Workflow Automation | Python

PROFESSIONAL SUMMARY

Business Administration graduate with experience designing and implementing automation solutions for finance and business operations. Developed Python-based tools integrating APIs, OCR, automated reporting, and workflow automation to improve efficiency, reduce manual work, and increase data visibility across organizations.

Experienced in translating business requirements into practical software solutions, automating structured processes, and supporting operational decision-making through data-driven reporting and analytics.

PROFESSIONAL EXPERIENCE

Process Automation & Finance Operations Lead

Grupo Giorlando | Mendoza, Argentina Dec 2023 – Dec 2025

- Designed and implemented Python-based automation workflows for Accounts Payable operations processing approximately 700 invoices per month from 20+ suppliers.
- Developed integrations using Gmail API, OCR (Tesseract), Pandas, and automated reporting tools.
- Reduced the monthly financial closing cycle from 40 days to 4 days through workflow redesign and automation.
- Managed supplier payment operations totaling approximately USD 500,000 annually.
- Identified and corrected operational variances totaling approximately USD 24,000 annually through reconciliation and audit controls.
- Built validation and reconciliation workflows across multiple business entities.
- Automated financial and operational reporting, improving accuracy and reducing manual workload.
- Standardized business processes, internal controls, and operational documentation.

Business Development & Commercial Support (Freelance)

Modena Air Service – Gruppo Modena | Buenos Aires, Argentina Jan 2025 – Present

- Developed executive presentations and technical-commercial proposals for aviation, emergency medical services, mining, and energy-sector projects.
- Developed operational planning, logistics analysis, and cost estimation for service proposals.
- Supported business development initiatives and client-facing commercial activities.
- Prepared technical documentation and business materials for domestic and international opportunities.

Business Development & Marketing

Petrel S.A. | Buenos Aires, Argentina Mar 2018 – Nov 2023

- Executed digital marketing and commercial positioning strategies.
- Conducted market research and prepared commercial materials.
- Supported customer acquisition and business development initiatives.
- Participated in industry events and commercial outreach activities.

KEY PROJECTS

Finance Automation Platform (Project Helios)

Python-based automation platform developed for Accounts Payable and finance operations.

- Automated invoice retrieval and document management using Gmail API integrations.
- Implemented OCR-based document processing and data extraction using Tesseract.
- Built validation and reconciliation logic for multi-entity expense tracking.
- Generated automated Excel and PDF reporting pipelines.
- Reduced manual invoice processing effort by more than 90%.
- Improved traceability, visibility, and control across financial workflows.

Financial Analytics Platform (Ágora)

Python-based analytics platform for market monitoring and portfolio analysis.

- Integrated AI-powered natural language interactions using large language models (LLMs).
- Developed automated data collection and processing workflows.
- Built interactive Streamlit dashboards for portfolio analysis and market monitoring.
- Implemented quantitative analytics, portfolio metrics, and automated reporting tools.

TECHNICAL SKILLS

- **Programming & Automation** : Python • Pandas • APIs • OCR (Tesseract) • Workflow Automation • Data Processing
- **Analytics & Reporting**: Excel (Advanced) • Power BI • SQL • KPI Reporting • Operational Dashboards
- **AI & Document Processing**: LLM-Assisted Workflows • Prompt Engineering • Document Processing • OCR-Based Data Extraction
- **Business Operations**: Accounts Payable • Financial Reporting • Internal Controls • Process Improvement • Vendor Management • SOP Documentation

EDUCATION

Bachelor's Degree in Business Administration

University of Mendoza | 2021
