Callao 1975 - CABA - Argentina

PROFESSIONAL PROFILE

Accounts Payable Specialist and Financial Automation Analyst. Managed the full AP cycle: invoice processing, validation, reconciliation, supplier coordination, and payments (~USD 500K annually). Designed and implemented a Python-based automation system that reduced monthly closing from 30 days to 2–4 days. Processed 600–700 invoices monthly with precise validation and automated reporting.

KEY ACHIEVEMENTS

- Automated AP cycle: invoice reception, validation, reconciliation, and payment execution.
- Managed ~USD 40K monthly payments with full traceability.
- Reduced month-end closing from 30 days to 2–4 days using Python automation.
- Processed 600–700 monthly invoices from 20 suppliers via Python + OCR.
- Achieved 100% OCR accuracy for 7 key suppliers (80% of volume).
- Maintained penny-level reconciliation across 5 locations and 3 legal entities.
- Detected and corrected discrepancies worth USD 24K annually.
- Delivered 25–30 page monthly reports with KPIs, trends, and VAT analysis.
- Cleared 18 months of accumulated supplier debt.

PROFESSIONAL EXPERIENCE

Accounts Payable Specialist & Financial Automation Analyst

Grupo Giorlando – Mendoza | Dec 2024 – Nov 2025

Invoice Flow Automation

- Developed Python scripts to download and classify invoices from Gmail.
- Built adaptive OCR per supplier (9 custom extraction scripts).
- Consolidated 10 data sources with pandas (removed duplicates, validated per location).

Validation, Reconciliation & Reporting

- Automated cross-validation by supplier, location, and legal entity.
- Reclassified non-categorized invoices automatically.
- Produced executive monthly reports (25–30 pages): supplier/location totals, spending trends, KPIs, seasonality, projections.
- Improved VAT reporting templates for 3 legal entities.

AP Operations, Controls & Payments

- Managed full AP cycle for 20-25 suppliers.
- Issued physical checks (~USD 40K monthly / ~USD 500K annually).
- Coordinated monthly supplier meetings: statement reviews, discrepancy resolution, onsite payments.
- Implemented internal controls across invoices, digital records, and accounting entries.
- Standardized documentation and process manuals.

Digital Marketing & Sales Specialist

Proyecto Petrel S.A. – Buenos Aires | Mar 2018 – Nov 2024

- Developed and executed 5-year marketing strategy aligned with business model evolution.
- Introduced VLA/LSA aircraft into the ultra-light segment, increasing market share through digital campaigns.
- Managed PR, coordinating interviews with major media (CNN, La Nación, Cadena 3).
- Secured export financing via collaboration with the Ministry of Production.
- Led social media management (20k followers) with record engagement of 3.59M interactions (May 2020).
- Produced market analysis reports, product cost plans, and investor presentations.
- Participated in FIDAE 2024 international aviation expo with dedicated booth.
- Initiated aircraft sales and built early client pipelines.
- Oversaw budget customization, supplier coordination, and customer service.

TECHNICAL SKILLS

Automation: Python (pandas, Gmail API, reportlab), OCR (Tesseract), rule-based extraction.
